Summary

In combination with the Third Congress of the International Society for Rock Mechanics in Denver 1974 a journey through the Rocky Mountain from Denver to Las Vegas was arranged. A couple of construction sites were visited, i.e. tunnels, dams, power stations and mines. The journey was made by bus during the week September 9th to 15th. After that three different research institutions were visited: the University of Minnesota September 17th, the Bureau of Mines in Minneapolis September 18th, and the University of Maryland September 19th to 20th.
